AUSTRIA

Austria, a picturesque country nestled in the heart of Europe, is renowned for its stunning landscapes, rich history, and vibrant culture. From the majestic peaks of the Alps to the enchanting cities, Austria offers a diverse range of experiences for travellers and locals alike.

One of Austria's most iconic landmarks is the capital city, Vienna. Known as the "City of Music," Vienna is a cultural hub that has produced some of the world's greatest composers, including Mozart, Beethoven, and Strauss. The city's architectural splendour is evident in its grand palaces, such as Schönbrunn Palace and Belvedere Palace, which showcase the country's imperial past.

Beyond Vienna, Austria's natural beauty is awe-inspiring. The Alps dominate the landscape, providing breath-taking vistas and opportunities for outdoor activities. Skiing enthusiasts flock to the famous resorts of St. Anton, Kitzbühel, and Ischgl during the winter months, while hikers and nature lovers can explore the numerous trails and alpine meadows during the summer.

Salzburg, another gem of Austria, is famous as the birthplace of Mozart and the setting for "The Sound of Music." This charming city captivates visitors with its baroque architecture, winding streets, and the imposing Hohensalzburg Fortress overlooking the old town. The Salzburg Festival, held annually, attracts music and theatre enthusiasts from around the world, adding to the city's cultural allure.

Austria's love affair with the arts extends beyond music. The country is home to numerous world-class museums and galleries. In Vienna, the Museum of Art History houses an extensive collection of artworks from renowned masters, while the Leopold Museum showcases Austrian modern art, including works by Gustav Klimt and Egon Schiele. The Belvedere Museum is famous for its collection of Klimt's iconic painting, "The Kiss."

When it comes to culinary delights, Austria has a lot to offer. Traditional Austrian cuisine is hearty and flavoursome, with dishes like Wiener Schnitzel, Sachertorte, and Apfelstrudel being popular favourite's. The country's vibrant café culture is deeply ingrained in Austrian society, and a leisurely afternoon spent in a traditional Viennese coffee house, savouring a cup of coffee and a slice of cake, is a must-do experience.

Austria also takes pride in its strong commitment to environmental sustainability. The country is known for its efficient public transportation system, well-maintained cycling paths, and the use of renewable energy sources. Whether exploring the cities or venturing into the countryside, visitors can appreciate Austria's efforts in preserving its natural resources.

In summary, Austria is a captivating destination that seamlessly blends history, culture, and natural beauty. From the grandeur of Vienna to the charm of Salzburg and the majestic Alps, Austria offers a multitude of experiences for every traveller. With its rich heritage, culinary delights, and commitment to sustainability, Austria continues to enchant visitors from around the globe.

VIENNA

The capital of Austria is situated in the Eastern part of the country and home to two million inhabitants. The city is famous for its cultural events, imperial sights and coffee house culture.

Vienna's history dates back to around about the first century AD, when the Romans established the military camp Vindobona. Until the 19th century Vienna was the dynasty capital of the Habsburg monarchy, many well-known architectural sights were built during that time.

Vienna owes much of its international fame to the many celebrated composers who lived and worked here, including Strauß, Mozart, Beethoven and Haydn. The Vienna Philharmonic Orchestra is one of the world's best, the State Opera amongst the leading opera houses, not to forget the famous Vienna Boys' Choir.

For more information please visit the Official travel guide of the city (next page).

Vienna | Visit Austria's Imperial Capital

Austria's capital Vienna offers a blend of imperial traditions and endearing charm. ✓Top 6 highlights ✓ Architecture ✓ Music
✓Coffee houses & wine taverns

SALZBURG FOR TECHNICAL TOUR ONLY

Salzburg is unique – in every regard. Anyone who has ever immersed themselves in the magic of the world-famous City of Mozart can never escape it again.

The harmonious interplay of landscape and architecture, art and culture, as well as traditional and modern, all within a surprisingly small area, merely adds to the special charm of this place.

W.A. Mozart.

Credit: iStock_bluejayphoto

Salzburg is the city where W. A. Mozart was born and the shooting location for "The Sound of Music". The narrow lanes and broad squares of this baroque city have taken their deserved place on the UNESCO World Heritage List.

The internationally acclaimed Salzburg Festival, the magnificent panorama and the countless temptations of Christmastime make Salzburg a complete artwork in its own right, and one that is quite beyond compare.

DETAILED SESSION OVERVIEW

Date: Monday, 11/Sept/2023

8:30 - 12:30

B4 SC Meeting Monday Morning

Location: Savoyen Olympia Mancini 1

Session Chair: Jingxuan (Joanne) Hu, RBU Engineering Corporation

12:30 - 13:30

Lunch Break Monday

Location: Savoyen Lobby

13:30 - 17:00

B4 SC Meeting Monday Afternoon

Location: Savoyen Olympia Mancini 1

Session Chair: Jingxuan (Joanne) Hu, RBU Engineering Corporation

Date: Tuesday, 12/Sept/2023

8:20 - 8:30

Opening of Colloquium

Location: Savoyen Olympia Mancini 2

Session Chair: Jingxuan (Joanne) Hu, RBU Engineering Corporation

8:30 - 10:30

VSC-Design

Location: Savoyen Olympia Mancini 2

Session Chair: Christian Winter, Minnesota Power

10:30 - 10:50

Coffee Break Tuesday Morning

Location: Savoyen Lobby

10:50 - 12:30

VSC-Technologies

Location: Savoyen Olympia Mancini 2

Session Chair: Carsten Bartsch, Siemens Energy

12:30 - 13:30

Lunch Break Tuesday

Location: Savoyen Lobby

13:30 - 15:30

VSC-Performance

Location: Savoyen Olympia Mancini 2

Session Chair: Nigel Shore, Hitachi Energy

15:30 - 15:50

Coffee Break Tuesday Afternoon

Location: Savoyen Lobby

16:10 - 17:30

STATCOM/DC Equipment

Location: Savoyen Olympia Mancini 2

Date: Wednesday, 13/Sept/2023

8:00 - 12:30

READY4DC & InterOPERA Workshop

Location: Savoyen Parisk&Wien

Session Chair: Nina Mavrogeorgou, WindEurope

8:30 - 10:30

Grid Forming

Location: Savoyen Olympia Mancini 2

10:30 - 10:50

Coffee Break Wednesday Morning

Location: Savoyen Lobby

10:50 - 12:30

DC Grid (1)

Location: Savoyen Olympia Mancini 2

Session Chair: Ilka Jahn, RWTH Aachen University

12:30 - 13:30

Lunch Break Wednesday

Location: Savoyen Lobby

13:30 - 14:50

DC Grid (2)

Location: Savoyen Olympia Mancini 2

14:50 - 15:10

Coffee Break Wednesday Afternoon

Location: Savoyen Lobby

15:10 - 17:10

DC/PE-Planning, Operation & Maintenance

Location: Savoyen Olympia Mancini 2

Session Chair: Zhibo Wang, Mitsubishi Electric Power Products, Inc.

Date: Thursday, 14/Sept/2023

8:30 - 9:50

Solid state transformer

Location: Savoyen Olympia Mancini 1

Tutorial presented by Markus Makoschitz from Austrian Institute of Technology

9:50 - 11:10

B4.84: Feasibility study and application of electric energy storage systems embedded in HVDC systems

Location: Savoyen Olympia Mancini 1

Tutorial presented by Hani Saad from ACCO Transient LLC

11:10 - 11:25

Coffee Break Thursday Morning

Location: Savoyen Lobby

11:25 - 12:45

B4.87: Voltage Source Converters (VSC) HVDC responses to disturbances and faults in AC systems which have low synchronous generation

Location: Savoyen Olympia Mancini 1

Tutorial presented by Carl Barker from GE Renewable Energy, Part of GE Vernova

12:45 - 13:30

Lunch Break Thursday

Location: Savoyen Lobby

13:30 - 14:50

B4.81: Interaction between nearby VSC-HVDC converters, FACTS devices, HV power electronic devices and conventional AC equipment

Location: Savoyen Olympia Mancini 1

Tutorial presented by Kamran Sharifabadi from Equinor

ACCESS TO PAPER SESSIONS DETAILS:

TUTORIAL

The last day of the SC B4 Meeting and Colloquium in Vienna is reserved for technical tutorials. The Tutorials are available to registered participants only. They will be held in room Olympia Mancini 1 and there will be a coffee break of 15 Minutes between the second and third tutorial. The 45 min lunch break will start at 12:45 am.

AFFILIATION	THURSDAY, SEPT. 14	TITLE	PRESENTED BY
Austrian Institut of Technology	08:30 am - 09:50 am	Solid state transformer	Markus Makoschitz
ACDC Transient LLC	09:50 am - 11:10 am	B4.84: Feasibility study and application of electric energy storage systems embedded in HVDC systems	Hani Saad
GE	11:25 am - 12:45 am	B4.87: Voltage Source Converters (VSC) HVDC responses to disturbances and faults in AC systems which have low synchronous generation	Carl Barker
12:45 am - 01:30 pm lunch break			
Equinor	01:30 pm - 02:50 pm	B4.81: Interaction between nearby VSC-HVDC converters, FACTS devices, HV power electronic devices and conventional AC equipment	Kamran Sharifabadi

TECHNICAL VISIT SALZBURG & KAPRUN

The B4 Colloquium concludes with a Technical Tour to Salzburg and the Kaprun-Pump-Storage-Power plant. This is for registered persons only.

Credit: iStock [bluejayphoto](#)

DATE	PROGRAMME
Thursday, September 14, 2023	In the afternoon, after the tutorial, individual transfer to Salzburg with public train. Tickets will be handed over during Colloquium.
Thursday, September 14, 2023	Check in at the Austria Trend Hotel Salzburg. Please book your room on your own. See page <u>10</u> .
Friday, September 15, 2023	8:45 a.m. Meeting point in front of the hotel. 9:00 a.m. Departure by bus to Power Plant Kaprun.
Friday, September 15, 2023	4:00 p.m. Departure by bus back to the Hotel. 6:30 p.m. end of the Cigre B4 Technical Tour.
Included in the price: Train Transfer from Vienna to Salzburg (2h), Bus to Kaprun, Technical Visit of Kaprun-Pump-Storage Power Plant, Lunch and Breaks

VIENNA PUBLIC TRANSPORT

All attendees have access to easy and reliable transportation options during their stay. To that end, the organization teams provide a link to the public transport system in the area. This system offers a variety of options for getting around, including buses, trains, and light rail. With frequent service and convenient routes, it's the perfect way to explore Vienna and get to the conference on time.

To access the public transport system website, simply click on the following link or scan the QR-Code. It is recommend to purchase tickets in advance.

COMPANION TOUR

Extra special for Vienna SC B4 Meeting companions:

On Monday morning, September 11, 2023, a guided Vienna city tour will be organized. The number of individuals is limited to 25 persons and the fee is 25€. First come, first served and registration is therefore absolutely necessary. Please send your details as soon as possible to c.gasser@ove.at / alexander.gaun@coilinnovation.at.

Air-core Dry-type Reactors for DC and FACTS

Coil Innovation is customer focused and our most valuable asset lies in our highly trained and skilled employees. They are fundamental to the success of our company through developing **innovative designs** engineered to meet our clients' most **demanding applications**, manufacturing and delivering **high quality** products, and providing **excellent service**.

Coil Innovation is dedicated to maintaining a **safe** work place, adhering to an **ethical code of conduct**, and **protecting** our **environment** by **minimizing waste** and **minimizing** our **carbon footprint**.

Mosaic Grid Solutions

Mosaic Grid Solutions is an internationally operating and highly specialized consulting and engineering service provider based in Karlsruhe, Germany. We support all stakeholders involved in the energy transition as a trustworthy and independent partner. Our expertise lies in the grid integration of large-scale power electronic projects such as high-voltage direct current transmission (HVDC), flexible ac transmission systems (FACTS), large-scale battery storage and electrolyzers. We identify requirements for converter-dominated power grids and perform design and system integration studies for next-generation assets.

Our Services

- Feasibility & System Impact Studies for HVDC, FACTS, BESS and Power2X Projects
- Support for Specifications, Engineering and Acceptance Tests
- Development of Simulation Models and Controls for EMT-Studies
- Conversion of Power System Data from PowerFactory™ to PSCAD™
- Development & Maintenance of Simulation Frameworks for Large-Scale EMT-Studies
- Hosting, Performance & Analysis of Grid-Integration and Interaction Studies
- Transient Stresses, Lightning Studies & Insulation Coordination
- Electromagnetic Interference Studies of Power Cables & Parallel Infrastructure
- Customized Workshops & Trainings dealing with Power Electronics-Dominated Grids

HVDC, a key enabler for a carbon-neutral energy system

We are developing and deploying technologies and solutions that are advancing the world's energy system to be more sustainable, flexible and secure.

hitachienergy.com/hvdc

HVDC technology will ensure efficient and reliable transmission of renewable energy, securing sustainable, reliable and affordable power today and in to the future.

ABOUT PLP

Founded in 1947, PLP is a global designer, manufacturer, and supplier of high-quality products and services for the electric power industry. With 25 global locations and customers in more than 140 countries, PLP is recognized around the world as a market leader in developing innovative and dependable solutions for transmission, distribution, and substation systems. This combination of local presence and global reach enables PLP to provide superior customer service, timely product delivery, and unmatched technical support to all our customers and industry partners.

SUBCON

SubCon is PLP's line of substation connectors, including designs for all voltage levels up to 1100 kV AC and DC. The SubCon product range includes standard connectors, busbar couplers, bimetallic and copper clamps, and insulator string sets for specialized connectors. In addition, a complete set of complementary accessories, including stranded and tubular conductors, insulators, and grounding materials is available. And with more than 4,000 existing products and 1,000 tailor-made products designed each year, SubCon offers customizable solutions for any application.
